Funding provided by:
The Robert Wood Johnson Foundation

SmokeLess States National Tobacco Policy Initiative

Funded by the Robert Wood Johnson Foundation

- Began in 1993 – SmokeLess States: Statewide Tobacco Prevention and Control Initiatives
 - 4 year program providing grants to state coalitions to develop and implement tobacco control programs that include education, treatment, and policy change efforts
 - Initial grants:
 - 9 states received 4-year implementation grants
 - 10 states received 2-year capacity building grants
 - Full Court Press project funded in Tucson
 - Several additional states funded in first round
- Complements federal efforts:
 - NCI-funded ASSIST program; CDC-funded IMPACT program

SmokeLess States National Tobacco Policy Initiative

- Renewed in 1998
 - Continued funding for DC and 14 states funded in initial round
 - Complements CDC's expanded National Tobacco Control Program funding that replaces IMPACT following end of the ASSIST program
- Significantly expanded in 2000
 - Three year program to expand to all 50 states and DC
 - Shift in emphasis to policy change:
 - Increasing tobacco excise taxes
 - Enacting and strengthening smoke-free air policies
 - Increasing state-funded coverage of cessation products and services
 - Allocating tobacco settlement and/or other funds to comprehensive tobacco control programs (secondary)
 - Ultimately funded coalitions in 42 states and DC

SmokeLess States National Tobacco Policy Initiative

SLS Grantees expected to:

- Strengthen statewide tobacco control coalitions and diversify their membership
- Develop a plan to improve the tobacco policy environment within their state with the goal of reducing tobacco use
 - Tax increases, smoke-free air policies, Medicaid coverage for cessation, and allocation of funding to comprehensive programs
- Educate the public about the need for stronger tobacco control policies

SmokeLess States National Tobacco Policy Initiative

Other conditions and opportunities:

- Coalitions must demonstrate commitment from other funders
 - 50 percent minimum match for RWJF funds
- Coalitions could not use RWJF funds for lobbying
 - No constraints on use of matching funds for lobbying, assuming that this was allowed by other funders
- Additional funds available from Special Opportunities Grant Fund
 - “rapid-response” funding when opportunities existed for quick policy change
- National Program Office at AMA to administer program, provide training, technical assistance, other support

SmokeLess States National Tobacco Policy Initiative

Coalitions engaged in combination of media and policy advocacy efforts to accomplish goals

- Accomplishments:
 - Cigarette and other tobacco taxes increased in 35 SmokeLess States
 - 2000 goal to double average state cigarette tax by 2005 was met by 2003; continued increases since
 - State policies banning smoking in all workplaces adopted in 7 SmokeLess States
 - Local ordinances adopted in hundreds of communities located in SmokeLess States
 - Statewide preemption blocked or repealed in several states
 - Funding from tobacco settlement or other sources (earmarked taxes) allocated to state tobacco control programs
 - Limited success in expanding Medicaid coverage for cessation

SmokeLess States National Tobacco Policy Initiative Evaluation

Evaluation focuses on the impact of SmokeLess States on several upstream outcomes:

- News coverage of tobacco-related issues, with emphasis on coverage of SLS priority tobacco control policy issues
 - Reflects the effectiveness of media advocacy and public education efforts
- Legislative activity targeting tobacco, with emphasis on SLS priority policies
 - Reflects effectiveness of policy advocacy efforts
- Strength of statewide tobacco control infrastructure
 - Reflects effectiveness of coalition building efforts
- Secondary focus on impact of SLS on tobacco use

SmokeLess States National Tobacco Policy Initiative Evaluation

Presentations in this session focus on key outcomes

- News coverage of tobacco-related issues
- Legislative activity targeting tobacco
- Strength of statewide tobacco control infrastructure
 - Description of data collection efforts
 - Presentation of descriptive data from each
 - Some preliminary analyses relating SmokeLess States support to key outcomes

Complete findings will be available in coming months on the SLS Evaluation website:
